July 2, 1968

Dear Harold,

As usual, it was good to hear from you. Thanks for giving Ernest some Help. He gave me no warning about his trip to the Archives so there was little I could think of for him to do, since I had to answer his letter as soon as I got it. He could be very useful because of his interest and large amount of free time plus ability to travel.

I also have written proof of nothing on Martin. Nothing on Ortiz either. Before I get affidavits, I must know whether Jim has the original film. The original, of course, would have frame numbers and would be spliced in an amateur fashion since Martin did the splicing himself. As soon as I get your reply I will have him execute the affidavit. Patsy is great and I'm going to give a special presentation of the case for two groups of his friends to try to do something in exchange for his help. I will be sending before the week is out 8 stills and a copy of the entire film in black and white which is blown up enough to make out what is going on. By examining the latter I was able to select the best views and also discover that one of the men motioned to LHO. I will send it care of Louis--2 copies of everything so each of you can have a set. Could you check and see if Louis got the slides I sent. They were registered, but I forgot to have a return notice put on them, so I don't know whether they arrived. By the way, as a sort of test, I asked Mark to check with Louis to see if they arrived and he assured me that he would. I'm curious if he did--but don't give it away if you ask Louis if he's heard from Mark. Please try to figure out a way of approaching the DCA people. Patsy's process for lightening the film could turn the dark frames into valuable new evidence, and it's very safe. If you get any ideas, please write. I plan to keep Patsy quite busy. Could you send me another copy of the man in the doorway--he may be able to bring out the fabric so as to make a scientific match with LHO--also facial details. If you hadn't been here, he said that he might have waited a while before contacting me. You certainly helped me a lot out here.

You currently have my large memo on K which I gave you in NO. I will make you some special ones about new info I have on him. Fortunately, professionals are now helping me. Have big new info on him. Still trying to make appointment with girls from Mexico with Nagell stuff...Very recent.

Will try to send you hypnosis stuff or recommend books. You'll have to wait for this since I'm swamped with work. You're the only person I have time to write more than a few sentences to.

Malcolm X man still among the missing. Killer of Malcolm in Springfield--pitcher on baseball team--mean fast-ball--named Jess. Hope to get inside info from Springfield, but contact has been broken for now.

Somehow, I've got to try to finish up Murray inquiry. Still trying to find time for trip up north to get Shreveport data. May try to get into Christ Crusade National Convention, August 1-4, in Tulsa. Have sent for a book they published by Penabaz. Walker, Hargis, Penabaz, and Bales (book on Martin Luther King) will all be there. I'm a member so I can get in! I get more right wing lit. than left wing. Blond hair and blue eyes plus a thorough knowledge of the Bible just must be good for something!

Your letter of 6/26 to which I am replying arrived only two days ago. You addressed it to Meanneapolic, Miss. and it was returned for a better address. Your wife remailed it and wrote on the outside: "He hasn't quite flipped yet. He's just blown his mind a bit." I'd like to have it blown up and made into a poster to be sold to Warren Report critics.

Take it easy and good luck down there.

Gay

P.S. Write me if Louis didn't get my slides. I'll send a letter with the photos. It still ll. Deano to me. Lane claims that Boxley is wrong about the shades. When Lane & De Antonio tried to film him he had no shades on.
